

NordLayer use cases in practice

IT managers share: NordLayer solution — element of success

Modern businesses of different sizes and industries have one unifying challenge — how to secure and enable cloud-based infrastructure, remote teams, and sensitive data.

omnisend	whatagraph	DataWalk	FastSpring	INVISIBLE	unbounce	oxylabs®
Email marketing & automatization	Data analytics & representation	Big data & business intelligence	E-commerce for SaaS	Outsourcing & automation	Advertising & marketing intelligence	Web scraping & proxy solutions
Global team expansion	Fast company scale-up	Reduce of IT manager's workload	Security-infra simplification	Team segmentation for third parties	Elimination of office dependence	Enablement of traveling teams
“Remote network access security solution takes distance to the company’s advantage, making it flexible and adaptable to any situation and work model.”	“With NordLayer, you don’t have to care how often your team scales. No extra network security technical integrations are required when a company expands.”	“Configuration was within 20 minutes — blocked public access and changed the IP address. It was as easy as it sounds.”	“Activation of member invites has an inquiry 95% non-return rate as instructions and setup is clear and direct.”	“Admins create teams, so one user does not have access to all IPs at once or by mistake connect to a job non-relevant resource.”	“With NordLayer, we’ve reduced the risk of disruption to the business or access if we lose the connection to the office.”	“VPN protocol proved speed endurance despite an actual distance how close or far away the employees were from a requested server.”

Customer first-hand account

We have been using their solution and it was super easy to set up and get everyone in the team using it. Recommend.

- Gianni

We are happy with the reliable connection and swift response and would like to recommend it.

- Peiyi

Extremely easy to setup, flawless usage and great support!

- Ivo D.

Simple to use - easy to get started - scales fluidly with the team. Solid interface and great support. 5 out 5 stars across the board.

- Curtis

A good solution for business and very reactive support.

- Vincent

The customer support team are fantastically fast, great work guys! The product is also very good, recommended.

- Ivan
